

# GigaPOF<sup>®</sup>-TL-KIT

## Toolkits for glue-on connector installation

Complete kits for installation of conventional glue-on connectors onto GigaPOF<sup>®</sup> premises cables. The simple portable tool kits include all familiar terminating and finishing tools.

### For terminating GigaPOF<sup>®</sup> fibers with standard connectors

These toolkits are the lowest-cost way to make your own prototypes with GigaPOF<sup>®</sup> fibers and cables. With these kits and our 5-minute epoxy, you can quickly and easily make terminated assemblies using LC, SC, FC, or ST connectors. Note that our fibers require ferrules with holes sized for either 750 μm (LD-series fibers and cables) or 490 μm (SR-series fibers and cables). Please see our glue-on connector data sheets for details.

### Features and applications

- » No cleaver needed
- » All familiar standard termination tools
- » Convenient kit for engineering prototyping of GigaPOF<sup>®</sup> links
- » Low cost kit suitable for university and lab use
- » Don't want to install connectors yourself? Try our pre-made patchcords. ([www.chromisfiber.com/patchcords.php](http://www.chromisfiber.com/patchcords.php))

KIT includes a stripper, a crimper, a pair of shears, a nipper, a polishing disc, polishing papers, a polishing pad, and a zipperable bag.

#### Kit Models and Related Products

Kit Models	Form Factor	Compatible Connectors	Compatible Cables	Description
GigaPOF-TL-KIT-LC	LC	All GigaPOF LC glue-on connectors	All SR-series premises simplex and duplex zipcord cables	Complete tool kit for installing LC glue-on connectors
GigaPOF-TL-KIT-SC	SC FC ST	All GigaPOF SC, FC, and ST glue-on connectors		Complete tool kit for installing SC, FC, and ST glue-on connectors
GigaPOF-TL-KIT	all	All above		Complete for LC,SC,FC, and ST
GigaPOF-TL-QEPX	all	All above		5-minute epoxy (2 gram package)

#### Compatible Connector Part Numbers

Form Factor	Simplex	Duplex
LC	GigaPOF-CN-SLC-GL	GigaPOF-CN-DLC-GL
SC	GigaPOF-CN-SSC-GL	GigaPOF-CN-DSC-GL
FC	GigaPOF-CN-SFC-LDGL, GigaPOF-CN-SFC-GL	
ST	GigaPOF-CN-SST-LDGL, GigaPOF-CN-SST-GL
